Our Association with the British Horse Society (BHS)

We are proud to work in association with the British Horse Society (BHS) to help ensure every retired Owners Group, Axom, and Elite Racing Club horse continues to live a happy, healthy, and well-cared-for life after racing.

The BHS has a nationwide network of friendly, experienced inspectors who share our belief that every horse should be respected, protected, and enjoyed by knowledgeable, caring people. You can read more about their work at www.bhs.org.uk.

What This Means for You

If you apply to rehome a horse through our company, you will receive a friendly visit from a local BHS representative.
This is a part of our commitment to welfare and traceability — visits are supportive, not supervisory — and designed to help ensure you and your horse are a good match.

You will be contacted beforehand to arrange a convenient time, and the visit will usually include:
- A relaxed chat about your plans for the horse.
- A look at grazing, stabling, and daily care routines.
- The opportunity to ask for advice and share feedback.

Please note, the BHS fees for the pre-arranged visits will be met entirely by Wentrow Media Limited.

Visit Timeline

To keep in touch and offer continued support, the BHS will arrange a small number of visits over time:
- Before your horse arrives: A pre-home visit will take place to help ensure the facilities and environment suit your new horse's needs.
- 6 months after you become the horse's new owner: A first follow-up to see how your horse has settled in and to offer any guidance.
- 12 months after arrival: A second follow-up visit to see how things are progressing and celebrate your horse's journey.
- Every 3 years thereafter: Routine triennial visits to stay connected and provide you with helpful advice, where requested.

These visits are designed to be a positive experience — an opportunity for open discussion and friendly guidance from an experienced BHS professional.

Photos, Videos & Data Protection

During BHS visits, a few photos or short video clips may be taken of your horse and their surroundings. These help us keep accurate welfare records and allow us to share updates on the horse's progress with our team, as well as with Owners Group, Axom, or Elite Racing Club members who supported the horse during their racing career.

The copyright of any photos or videos taken, will belong to Wentrow Media Limited and its subsidiary undertakings.

All visit reports are handled securely and shared only where there's a legitimate need — for example, between the BHS and Wentrow Media Limited, — and always in line with data protection regulations.

Owners Group, Axom, Elite Racing Club and the BHS are fully compliant with UK GDPR (General Data Protection Regulation) requirements, ensuring that all personal information, is stored safely and used for welfare and traceability purposes only.

You can read the BHS privacy notice here: www.bhs.org.uk/privacy-notice.

Why We Do This

Our shared goal with the BHS is simple:
to help provide lifelong traceability, and ongoing helpful advice.

Your support is much appreciated, and we thank you sincerely for considering providing a home for life for a retired racehorse

The EquiPrep Team
(on behalf of Wentrow Media Limited, Owners Group, Axom & Elite Racing Club)
